CULLEN INTERNATIONAL

regulation made simple

digital economy regulatory intelligence europe

Gain insight on regulation shaping the digital economy in Europe.

In recent years, the European Union has adopted an unprecedented number of initiatives to favour the development of data-driven technologies, such as AI, IoT and digital platforms, while ensuring adequate protection of users' rights.

At Cullen International, we provide independent and expert insight into the past, present and future of European policy and regulation relevant to the development of the digital economy.

Subscribe to our Digital Economy intelligence service and we'll help you to learn about and keep up-to-date with European regulation, and understand how it affects you.

Topical coverage

- Data protection and privacy
- Cybersecurity
- Artificial Intelligence (AI)
- Data sharing and reuse
- Liability of emerging technologies
- Digital platforms
- EU consumer rules
- ... and more
